PROFESSIONAL SUMMARY

Final year B.Tech (CSE) student passionate about Data Science and Machine Learning. Skilled in Python, SQL, data analysis, machine learning algorithms and building end to end ML applications. Experienced in working on real-world datasets, model building, evaluation and deploying ML models using Flask. Seeking opportunities to contribute to innovative projects and grow in a Software Field.

EDUACATIONAL QUALIFICATIONS

Qualifications	Course	College	Year	CGPA
B. Tech	Computer Science Engineering	YSR engineering college	Expect-2027	8.4
Intermediate	Maths, Physics and Chemistry	Govt, Junior College	2023	91
SSC	-	Khadri E.M high School	2021	98

INTERNSHIPS

Artificial Intelligence | SkillDzire **May 2025 – June 2025**

- Working on real world projects like Iris Dataset, Breast Cancer Detection and gained practical knowledge including cleaning, extraction, data visualization using matplotlib tools.

Data Science Intern | Edutech Solutions **April 2026 – May 2026**

- Working on multiple machine learning projects including regression, classification, clustering and dimensionality reduction

PROJECTS

AI Salary Prediction Web App **Flask, Python, Scikit-learn, HTML, CSS, JavaScript**

- Developed a machine learning web application to predict salaries based on job role, skills, experience.
- Deployed the model using Flask and designed a user-friendly web interface.
- GitHub: github.com/Swetha60/AI-Salary-Prediction

AI House Price Prediction **Flask, Python, Scikit-learn, HTML, CSS, JavaScript**

- Built a house prediction web app using regression models on real estate dataset.
- Implemented data preprocessing, feature scaling and model evaluation techniques.
- Live Demo: aihousepriceprediction-qlyjxy5ab.vercel.app
- GitHub: github.com/Swetha60/AI-House-Price-Prediction

TECHNICAL SKILLS

Programming Languages: C, Python, SQL, Java

Web Technologies: Flask, HTML, CSS, JavaScript

Tools & Platforms: Jupyter Notebook, VS Code, Google Colab.

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode.
